

Accordent PresenterPRO Enterprise Edition

FOR PROFESSIONAL ONLINE COMMUNICATIONS

ACCORDENT PRESENTERPRO ENTERPRISE EDITION enables organizations to easily create professional online multimedia presentations with unparalleled scalability. This powerful webcasting solution integrates directly with Accordent's media management products to provide the industry's only automated, end-to-end infrastructure for authoring, distributing, managing and measuring multimedia presentation assets.

- Increase efficiency with live, real-time communications
- Reach a worldwide audience with reliable, scalable presentations
- Promote your brand and message with customized interfaces and tailored content
- Increase productivity with high-retention, multimedia presentations
- Collect critical audience feedback with polling, moderated Q&A and surveys
- Make the most of your existing infrastructure with Accordent's standards-based architecture
- Achieve Section 508 compliance with included closed captioning support

One easy-to-implement, easy-to-use solution that will make an immediate impact on your communications and your bottom line.

POWERFUL FEATURES, BROAD APPLICATIONS

Accordent PresenterPRO software uniquely combines the visual impact of live and on-demand streaming video and audio technology with presentation assets and interactive features, including:

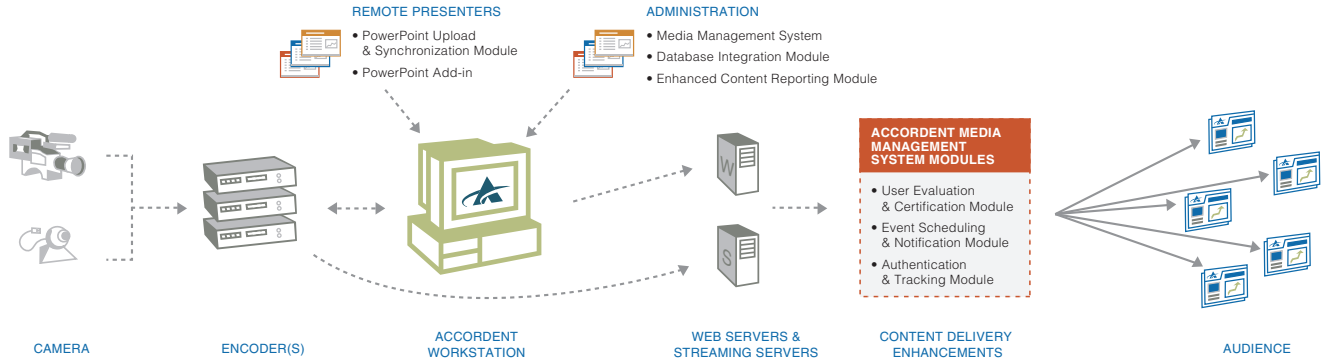

- Synchronized PowerPoint slides
- Synchronized PDFs and images
- Flash files and URLs
- Downloadable documents
- Chat
- Moderated Q&A
- Polling and surveys
- Closed captioning
- Registration and authentication
- Advanced XML support
- Secure FTP support
- Advanced template customization
- Publish to multiple servers
- Remote encoder configuration
- Advanced post-event editing capabilities

Combined, these features provide the perfect solution for online announcements, eTraining, marketing, corporate broadcasts and many other online communications initiatives.

EXTENSIBLE ARCHITECTURE

Accordent PresenterPRO enables organizations to scale their communications strategy on demand with zero downtime. With a broad set of solution modules that integrate seamlessly with Accordent PresenterPRO, organizations can extend the value of their initial investment with powerful administrative, publishing, tracking and security features including content management, event scheduling, search, user tracking, certification and database integration.

With a single system, non-technical personnel can efficiently perform mission critical communication tasks while enabling administrators to centrally manage the network resources, including streaming and web servers, edge caches, cameras and encoders.

POWERFUL FEATURES

THE RIGHT TOOLS MAKE IT EASY

- The Presentation Wizard guides you step-by-step through the process of creating live or on-demand presentations.
- Choose your Microsoft PowerPoint presentation and the system converts it for web distribution in seconds.
- PowerPoint Add-in captures and synchronizes presenter actions directly from PowerPoint for incredible ease of use.
- Export presentations to Accordent PresenterPLUS for advanced editing and import back to Enterprise Edition for publishing.

A FLEXIBLE PLATFORM THAT ENSURES COMPATIBILITY TODAY – AND AS YOU GROW

- Accordent PresenterPRO supports Real and Microsoft media formats.
- Leverage world-class internal and external hosting networks of your choice, instantly.
- Compatible with Internet Explorer, Netscape and Mozilla.
- Supports Windows, Unix and Linux servers.
- Publishing features allow for unparalleled scalability- for audiences from 10 to 10,000.

ADVANCED FUNCTIONALITY WITH EXCEPTIONAL VERSATILITY

- Create customized branded interfaces in minutes; no hard-coding or SMIL required.
- Collect essential audience feedback with polling, surveys, Q&A and moderated chat.
- Archive and publish presentations with the click of a button.
